

Lockheed Martin Awarded \$102 Million Contract To Support Defense Civilian Personnel Management Service

PRNewswire-FirstCall
OWEGO, N.Y.

Lockheed Martin has been awarded a \$102 million contract to operate, maintain and sustain the Defense Civilian Personnel Data System (DCPDS) for the Department of Defense (DoD) Civilian Personnel Management Service (CPMS). The system is used to process personnel transactions and maintain records on more than 800,000 DoD civilian employees.

"This project involves one of the largest human resources systems in the world," said Peter Rogers, vice president of Systems Solutions at Lockheed Martin Systems Integration - Owego. "We are extremely proud of the confidence that the Defense Department has in Lockheed Martin by selecting us to meet its human resources challenges."

As prime contractor, Lockheed Martin will provide systems integration, system operation and sustainment, program management, system maintenance, as well as technology infusion functions. Lockheed Martin has supported DCPDS since 1999, and this contract provides for continued support through 2007. The contract was awarded via the Lockheed Martin Information Technology Omnibus Procurement II (ITOP II) contract vehicle through the Department of Transportation.

The modern DCPDS provides DoD personnel offices more efficient, easier-to-use tools for conducting daily Human Resources (HR) operations and supporting customers around the globe. Customers receive 24x7 Help Desk support when assistance is needed. The system provides an easy-to-use graphical user interface and supports more than 500,000 business rules that guide users through the complex policies and procedures that govern federal employment.

Subcontractors on the CPMS support project include:

- * Lockheed Martin Enterprise Information Systems, Orlando, FL and Denver, CO
- * ACS Government Services Inc., Rockville, MD
- * AnviCom Inc., Dunn Loring, VA
- * Decision Systems Technologies Inc., Dayton, OH
- * Diversified Technical Services Inc., El Paso, TX
- * dNovus Research Dynamics Inc., San Antonio, TX
- * Object CTalk Inc., King of Prussia, PA
- * ThinkSpark L.P., San Antonio, TX

Lockheed Martin Systems Integration - Owego is a leader in providing advanced technology products, services and systems integration solutions for defense, civil and commercial customers worldwide. Systems Integration - Owego employs more than 4,200 people at facilities in the United States, Canada and the United Kingdom and is a business segment of Lockheed Martin Corporation with headquarters in Bethesda, MD. Lockheed Martin is a global enterprise principally engaged in the research, design, development, manufacture and integration of advanced technology systems products and services.
