

# St. Paul Resident Scott Morgan Honored By Lockheed Martin

PRNewswire-FirstCall  
EAGAN, Minn.

Lockheed Martin recently awarded its Maritime Systems & Sensors (MS2) Premier Circle Honors designation to St. Paul resident Scott Morgan.

Morgan, who works at Lockheed Martin's facility in Eagan, was recognized for outstanding innovation and personal initiative in creating systems engineering curricula, formal courses and practicum for early-career engineers.

The Premier Circle Honors program recognizes employees whose contributions to the business set an example of excellence. This year, 85 of MS2's 12,000 employees were selected for the award.

"Scott's accomplishments convey the effort to change and improve our business to best serve our customers," said Fred Moosally, MS2 president. "He stands as a role model for MS2, and is recognized by all employees as deserving of this significant award."

Headquartered in Bethesda, MD, Lockheed Martin employs about 130,000 people worldwide and is principally engaged in the research, design, development, manufacture and integration of advanced technology systems, products and services.
