Lockheed Martin To Webcast Information Technology President Presentation At Industry Conference

Lockheed Martin Corporation will webcast a live presentation by Linda Gooden, President, Lockheed Martin Information Technology, at the UBS Government & Defense IT Conference on Friday, March 3, 2006.

Ms. Gooden is scheduled to present on a panel from 9:40 to 10:10 a.m. EST, and will discuss the corporation's leadership position and growth plans in information technology.

Access the webcast at: http://www.lockheedmartin.com/investor. An audio replay will be available for two weeks.

Headquartered in Bethesda, Md., Lockheed Martin employs about 135,000 people worldwide and is principally engaged in the research, design, development, manufacture, integration and sustainment of advanced technology systems, products and services. The corporation reported 2005 sales of $37.2 billion.

Forward-looking Statements:

The presentation will contain "forward-looking" statements or projections based on current expectations. These statements are not guarantees of future performance and are subject to risks and uncertainties. Actual results may differ materially due to: the availability of government funding and budgetary constraints; changes in customer priorities; the impact of continued hostilities in Iraq and spending for disaster relief on funding for defense programs; program and contract performance; the timing and availability of future government awards; the future impact of acquisitions, divestitures or joint ventures; the outcome of legal proceedings and other contingencies (including lawsuits, government investigations or audits, government/regulatory approvals and environmental remediation efforts); economic, business and political conditions and other factors. We disclaim any duty to update forward-looking statements to reflect new developments. Our SEC filings (found at http://www.lockheedmartin.com/ or at http://www.sec.gov/), including our 2004 Form 10-K and 2005 Form 10-Qs, contain more information on the types of risks and other factors that could adversely affect these statements.
