Lockheed Martin Selected For U.S. Navy C4ISR Systems Lifecycle Support Services

Lockheed Martin has been awarded a indefinite delivery/indefinite quantity, cost-plus fixed fee contract by the U.S. Navy Space and Naval Warfare Systems Center, San Diego (SSC-SD) for C4ISR Systems Lifecycle Support Services. The period of performance is a three-year base period worth up to $59 million. Two additional award term periods raise the potential value to $189 million.

Under this new contract, Lockheed Martin will provide a range of C4ISR System Lifecycle Support Services to the SSC-SD C4ISR Programs office located in Philadelphia. Specific efforts will include logistics planning, configuration management, system integration, system installations, technical documentation, training development, training, 7/24 customer support center, and technical field support. These services will be performed both in the United States and overseas by the Lockheed Martin team which includes Gnostech Inc., Navmar Applied Sciences Corporation, Pullin Corporation and HBC Management Services.

The award of this contract continues a long and productive partnership between SSC-SD C4ISR Programs Philadelphia and Lockheed Martin. Lockheed Martin is proud to continue support of the Space and Naval Warfare Systems Command which has existed for more than a quarter century.

"During our 26-year history with SSC-SD, we have greatly enjoyed the partnership which has achieved collective successes. We are pleased that our solutions offer the highest technical quality at the lowest risk and with optimal staffing," said Carey Smith, Vice President of Lockheed Martin's Technical Services. "We look forward to continuing this collaboration for the next 8 years in support of the C4ISR Systems Lifecycle Support Services contract."

Technical Services is part of Lockheed Martin's Readiness and Stability Operations (RSO) Group delivering engineering and logistics services. RSO provides the full spectrum of global capabilities including deep expertise in providing mission operations support and readiness, peacekeeping, nation building, logistics, technology services and systems integration solutions.

Headquartered in Bethesda, MD, Lockheed Martin is a global security company that employs about 140,000 people worldwide and is principally engaged in the research, design, development, manufacture, integration and sustainment of advanced technology systems, products and services. The corporation reported 2007 sales of $41.9 billion.
