This 56,000-square-foot facility, located in the Ft. Meade area, has a seating capacity for 250 professionals. It will further expand, integrate and connect employees, customers and industry partners as Lockheed Martin continues to grow and evolve its critical cyber security work.

"We're looking ahead – we know the importance of the cyber mission will continue to grow for our customers," said Tim Reardon, President of Lockheed Martin IS&GS National. "Lockheed Martin's talented workforce, cutting edge technology, and state-of-the-art facilities like this position us to meet the cyber challenges and needs of a diverse range of missions and customers."

In addition to system labs and employee training rooms, the facility contains an Advanced Innovation Center. This center utilizes the breadth of Lockheed Martin's capabilities and investments so the team can rapidly develop and provide solutions to customers' most critical mission needs.

Laura Neuman, Anne Arundel County Executive, said, "We appreciate Lockheed Martin's continued investment in our county. The opening of the Cyber Center of Excellence further solidifies Anne Arundel County's reputation as the nexus of cyber security development, giving more promise to high-tech job growth and business opportunities in the area."

About Lockheed Martin
