"This IDIQ contract win allows Lockheed Martin to offer industry leading support that serves the needs of the warfighter and U.S. Military global operations," said Willie Callahan, vice president of Data, Analytics and Services with Lockheed Martin Information Systems & Global Solutions. "The services under this contract will help the Navy achieve its mission needs of maximizing productivity, efficiency and security."

Under this multiple award Indefinite-Delivery-Indefinite-Quantity (IDIQ) contract, Lockheed Martin will look to provide technical services associated with full system lifecycle support of computers and combat systems that aid in carrying out battle, business and intelligence activities.

Headquartered in Bethesda, Md., Lockheed Martin is a global security and aerospace company that employs about 118,000 people worldwide and is principally engaged in the research, design, development, manufacture, integration, and sustainment of advanced technology systems, products, and services. The Corporation's net sales for 2012 were $47.2 billion.
