

Lockheed Martin Announces Briefing Schedule For The 2015 AFA Air And Space Conference

PR Newswire
BETHESDA, Md.

BETHESDA, Md., Sept. 9, 2015 /PRNewswire/ -- Lockheed Martin (NYSE:LMT) will host two briefings for journalists at the 2015 Air Force Association (AFA) Air & Space Conference and Technology Exposition at the Gaylord National Resort and Convention Center in National Harbor, Maryland.

Journalists can obtain additional program information at www.lockheedmartin.com/afa.

Monday, Sept. 14

Location: National Harbor Room 12

11 a.m.	- C-130J Super Hercules Outlook: 2016 and Beyond
	<i>Presented by George Shultz, vice president and general manager, C-130 Programs, and Ray Fajay, vice president, business development, Air Mobility Programs</i>
	The C-130J Super Hercules is the world's most proven airlifter, providing unmatched multi-mission service to 19 operators in 16 countries, including the U.S. Air Force. Join George Shultz and Ray Fajay for a C-130 program overview and conversation about the future for this versatile workhorse. Lunch provided. For more information, contact Stephanie Stinn at stephanie.stinn@lmco.com or (770) 494-0489.
11:45 a.m.	- U-2: Meeting Today's Needs and Tomorrow's Challenges
	<i>Presented by Melani Austin, director, U-2, and Scott Winstead, strategic business manager, U-2</i>
	As the newest generation of an American icon, the U-2S delivers unmatched performance and unparalleled capability, and is ready and able to serve the warfighter beyond 2045 without any major upgrades. Join Melani Austin and Scott Winstead for an overview and conversation about Skunk Works® next-gen ISR platform options and the need to continue to operate today's mixed fleet of complementary systems. Lunch provided. For more information, contact Dana Carroll at dana.h.carroll@lmco.com or (661) 361-4108.

Headquartered in Bethesda, Maryland, Lockheed Martin is a global security and aerospace company that employs approximately 112,000 people worldwide and is principally engaged in the research, design, development, manufacture, integration and sustainment of advanced technology systems, products and services.
