

Lockheed Martin, Cubic And PULAU Team For Army TADSS Maintenance Training Program

Partnership to maximize operational awareness and mission readiness in support of Army training worldwide

PR Newswire
ORLANDO, Fla.

ORLANDO, Fla., Dec. 2, 2015 /PRNewswire/ -- Lockheed Martin (NYSE: LMT) has added experienced industry providers Cubic Global Defense and PULAU Corporation to its team competing for the U.S. Army Training Aids, Devices, Simulators and Simulations (TADSS) Maintenance Program (ATMP).

Managed by the U.S. Army Program Executive Office Simulation, Training and Instrumentation, ATMP will provide maintenance, life cycle management and sustainment of more than 250,000 fielded TADSS and ranges in support of U.S. Army training worldwide.

"With a strong legacy of delivering training solutions and logistics services to the U.S. Army, the Lockheed Martin team understands how critical it is for our service members to be mission-ready," said Jon Rambeau, vice president and general manager for Lockheed Martin Training and Logistics Solutions. "Our ATMP team combines a global logistics and sustainment footprint with smart technology solutions that will maximize the Army's operational awareness and the return on investment in their training enterprise."

Lockheed Martin has a heritage of delivering training services that prepare service members to perform with excellence when it matters most. Lockheed Martin provides the U.S. Army's most current, complex and widely used TADSS in the field today including the Digital Range Training System and Urban Operations Training System; the Advanced Gunnery Training System and the Close Combat Tactical Trainer; and the Joint Land Component Constructive Training Capability. The company has fielded systems across the spectrum of live, virtual and constructive training and is investing in innovative technologies to support the Army's Integrated Training Environment of the future.

Cubic Global Defense, a business unit of Cubic Corporation (NYSE: CUB), provides the U.S. Army advanced training equipment, solutions and supporting services to enable a relentless focus on readiness and training for both the individual and collective force.

"Cubic provides the Army all facets of Multiple Instrumented Laser Engagement Systems (MILES), Engagement Skills Trainers and a wide range of training systems and services," said Bill Toti, president of Cubic Global Defense. "Cubic's long experience deploying training technology – at nearly every Combat Training Center – is unmatched, spanning military operations in the urban terrain (MOUT) instrumentation systems, tactical engagement simulations and relevant opposing forces systems."

PULAU Corporation, a privately held company, is a recognized TADSS service provider to the U.S. Army. Since its inception in 1975, PULAU has provided innovative, high quality solutions in the areas of operation, maintenance and logistical services. During this time, PULAU has earned the trust and confidence of the training community and TADSS users across the virtual and live domains. PULAU is a highly agile and flexible company capable of responding to rigorous demands of the training environment. Today over 300 PULAU employees are supporting the men and women of the U.S. Army.

"PULAU and our employees have a long history supporting the service members and the Army's worldwide training mission," said Mike Armstrong, president of PULAU. "We are excited to have the opportunity to continue our support to both PEO STRI and ATMP."
