## Littoral Combat Ships 11 (Sioux City) And 13 (Wichita) Delivered To U.S. Navy

MARINETTE, Wis., Aug. 23, 2018 / PRNewswire -- Lockheed Martin (NYSE: LMT) and Fincantieri Marinette Marine (FMM) delivered the future USS Sioux City, Littoral Combat Ship (LCS) 11, and future USS Wichita, LCS 13, to the U.S. Navy.

LCS 11 is the sixth Freedom-variant LCS designed and built by the Lockheed Martin-led industry team and will be commissioned at the United States Naval Academy in Annapolis, Maryland, on Nov. 17. LCS 11 will be the first combat ship ever commissioned at the Naval Academy.

LCS 13 is the seventh Freedom-variant LCS designed and built by the Lockheed Martin-led industry team, and will be commissioned this winter.

"We look forward to the day the future USS Sioux City and USS Wichita join the fleet. LCS is a highly affordable, increasingly lethal and versatile ship," said Joe DePietro, vice president of Lockheed Martin's Small Combatants and Ship Systems. "LCS is a growing component in the U.S. Navy surface force, designed to fulfill critical missions around the world now and in the future."

LCS 11 and LCS 13 will be homeported at Naval StationMayport, Florida, alongside USS Milwaukee (LCS 5), USS Detroit (LCS 7) and USS Little Rock (LCS 9).

"Today's important milestone was made possible by the investment and improvements made to our serial production line, which allowed us to realize our vision for a highly capable and efficient shipyard," said Jan Allman, FMM president and CEO. "Fincantieri Marinette Marine's shipbuilders are proud to deliver these proven warships, and we look forward to working with Lockheed Martin and the U.S. Navy to continue building these highly capable ships for the fleet."

With the delivery of LCS 11 and 13, Team Freedom has delivered seven Littoral Combat Ships to the U.SNavy. Seven ships are in various stages of production and test at Fincantieri Marinette Marine.

Lockheed Martin's Freedom-variant LCS is a highly maneuverable, lethal and adaptable ship, designed to support focused-missions in the areas of mine countermeasures, anti-submarine warfare and surface warfare. The Freedom-variant LCS integrates new technology and capability to affordably support current and future mission capability from deep water to the littorals.

## **About Lockheed Martin**

Headquartered in Bethesda, Maryland, Lockheed Martin is a global security and aerospace company that employs approximately 100,000 people worldwide and is principally engaged in the research, design, development, manufacture, integration and sustainment of advanced technology systems, products and services. This year the company received three Edison Awards for ground-breaking innovations in autonomy, satellite technology and directed energy.

## **About Fincantieri Marinette Marine**

Fincantieri is the leading western shipbuilder with a rich history dating back more than 230 years, and a track record of building more than 7,000 ships. Fincantieri Marine Group is the American subsidiary of Fincantieri, and operates three Great Lakes Shipyards: Fincantieri Marinette Marine, Fincantieri Bay Shipbuilding, and Fincantieri ACE Marine. Fincantieri Marine Group's more than 2,100 steelworkers, craftsman, engineers and technicians in the United States specialize in the design, construction and maintenance of merchant ships and government vessels, including for the United States Navy and Coast Guard.

## **About Gibbs & Cox**

Gibbs & Cox, the nation's leading independent maritime solutions firm specializing in naval architecture, marine

engineering and design, is headquartered in Arlington, Virginia. The company, founded in 1929, has provided designs for nearly 80 percent of the current U.S. Navy surface combatant fleet; approaching 7,000 naval and commercial ships have been built to Gibbs & Cox designs.
