Lockheed Martin's Marietta Site To Host Same-Day Hiring Decision Event

Event taking place at Kennesaw State University's Marietta Campus on May 4, 2022

MARIETTA, Ga., April 25, 2022 /PRNewswire/ -- Representatives from Lockheed Martin (NYSE: LMT) will be at Kennesaw State University, Marietta Campus Student Center at 860 Rossbacher Way,Marietta, Georgia, 30060 on **May 4** from **9 a.m. to 6 p.m.** to conduct interviews and make same-day hiring decisions. The company is looking to fill nearly 200 positions.

This event is for candidates who meet the basic qualifications for critical C-130J Super Hercules and F-35 Center Wing production hourly positions, to include structures mechanics, coaters, painters, electrical and electronics mechanics. Interested individuals must register for the event at tinyurl.com/5abnbcnb to be considered for an interview. Candidates joining the team could receive **up to a $15,000** sign-on bonus.

"We have a strong future in the C-130J and F-35 Center Wing programs with a growing backlog and continued domestic and international interest in our aircraft," said David Coffman, vice president, Air Mobility & Maritime Missions Production Operations. "This hiring event provides a great opportunity to join a team with a deep-rooted culture focused on our global customers. It's an opportunity for long-term career development and the chance to be part of the world's longest continuous military aircraft production operation in history."

Lockheed Martin has produced aircraft at its Marietta site since 1951. Every production C-130 Hercules airlifter — more than 2,600 delivered to date — has been produced in Marietta since 1954. More than 4,500 employees currently work at the site, supporting work on the C-130J Super Hercules final assembly and the F-35 Lightning II center wing assembly production lines. With 3.4 million square feet of production space, some of history's most iconic aircraft have been built in Marietta, including the F-22 Raptor, C-5 Galaxy/C-5M Super Galaxy, P-3 Orion and the C-141 Starlifter. The facility (officially known as Air Force Plant 6) first opened in 1943 to support the manufacturing of B-29 bombers by the Bell Bomber Corporation.
