Lockheed Martin Statement On The Passing Of Aeronautics Vice President Of Strategy And Business Development Erin Moseley

Erin Moseley, Aeronautics vice president of Strategy and Business Development

FORT WORTH, Texas, Dec. 11, 2023 – The following is a statement from Lockheed Martin Aeronautics Executive Vice President Greg Ulmer:

“The entire Lockheed Martin team was saddened to learn that Erin Moseley passed away. She embodied our company’s values in spirit and action every day – to do what’s right, respect others and perform with excellence. Throughout her career, Erin built valued customer partnerships to strengthen security for our nation, our partners and allies around the world. Her example was an inspiration to those of us fortunate enough to have worked with her closely, and her leadership in the aerospace and defense industry will have a lasting impact for years to come. Our deepest sympathies go out to her family, the entire Lockheed Martin team, and everyone she touched in her remarkable life and career.”

About Erin Moseley

With more than 25 years of experience in the defense and aerospace industry, Moseley led a significant number of domestic and international pursuits to strengthen security for our nation, our partners and allies around the world.

She most recently served as vice president of Strategy and Business Development for Lockheed Martin Aeronautics, responsible for domestic and international pursuits and new business capture for the Aeronautics portfolio, including fifth-generation tactical aircraft, air mobility, uncrewed and intelligence/surveillance/reconnaissance platforms, and Advanced Development Programs at Lockheed Martin’s Skunk Works®.

Prior to her recent role at Lockheed Martin, Moseley was senior partner at Inglee, Sauer, Moseley (ISM) Strategies. Prior to joining ISM, she served as president of Support Solutions at BAE Systems, Inc., a $3.2 billion sector of the company. In this role, she was responsible for sustainment, upgrades and life extension to defense products and services, including engineering, systems integration, ship repair, and readiness and sustainment for military and commercial customers. She previously served as senior vice president for Government Relations at BAE Systems.

She was the vice president of Sensors and Electronic Systems at Lockheed Martin from 2004-2006, where she supported multiple business areas covering systems integration, sea-based platforms, missile defense, sensors, electronic systems, simulation and training services. She also led various teams at General Dynamics from 1998-2004, concluding her work there as staff vice president of Government Relations, Combat Systems.

Prior to joining the defense industry, Moseley served in the U.S. government as the special advisor to the deputy director of the U.S. Arms Control and Disarmament Agency.

She earned bachelor’s degrees in international relations and political science from Azusa Pacific University, and a master’s degree in National Security Studies from Georgetown University. She also earned a certificate in Nuclear Deterrence from Harvard University.

She is survived by her husband Chase and their children Chase, Megan, Caitlin and Michael.

About Lockheed Martin

Headquartered in Bethesda, Maryland, Lockheed Martin Corporation is a global security and aerospace company that employs approximately 116,000 people worldwide and is principally engaged in the research, design, development, manufacture, integration and sustainment of advanced technology systems, products and services.
