HENSOLDT And Lockheed Martin Sign A Memorandum Of Understanding

Bethesda, Md., Nov. 11, 2024 – On 7 November 2024, Oliver Dörre, CEO of HENSOLDT AG and Paul Lemmo, vice president and general manager Integrated Warfare Systems and Sensors at Lockheed Martin, signed a Memorandum of Understanding on a potential cooperation in the field of maritime command and control systems and radar technologies.

“This MoU with Lockheed Martin reflects our positioning as a reliable partner for national and international security and defence programs and our strategic development as a provider of integrated system solutions,” said Oliver Dörre on the occasion of the signing of the MoU.

“We are already working together successfully on various projects. We are therefore all the more looking forward to working with the Lockheed Martin team to drive forward concepts with pioneering technologies in the field of maritime command and control systems and radar and thus contribute to the sustainable expansion of the capabilities of our military customers and partners including the potential of local value creation” Dörre continued.

“Lockheed Martin is dedicated to building industrial partnerships for programs in Germany and beyond. Our collaborative efforts in radar development will result in high-performance systems, constructed, and sustained in Germany, ensuring operational capability now and for decades to come.” – Paul Lemmo, vice president and general manager, Integrated Warfare Systems and Sensors at Lockheed Martin.
